

25 Years of Schulmeister: A Success Story in Finance Recruitment

- **25 years of recruitment expertise:** founded in Vienna in 2001
- **Around 120 guests** attended the anniversary celebration at Quartier Sechs in Vienna
- **Around 500 placements per year** in specialised professional and management positions
- **5 locations** in Vienna, Linz, Graz, Salzburg and Prague

Vienna, 14. September 2026 – Schulmeister Management Consulting is celebrating its 25th anniversary in 2026. The company was founded in Vienna in 2001 by Mag. Matthias Schulmeister and has since developed into a specialised recruitment consultancy with offices in Vienna, Linz, Graz, Salzburg and Prague.

From the outset, Schulmeister focused on recruiting professionals and executives in finance and accounting. Today, the company's core areas of expertise also include Finance & Accounting, Controlling, Technology & IT, Engineering and Real Estate. Its service portfolio is complemented by Executive Search and Interim Management.

To mark the anniversary, Schulmeister celebrated together with around 120 clients, partners, employees and long-standing companions in Vienna on 10 September 2026.

"25 years of Schulmeister represent many successful placements, long-standing relationships and, above all, the people who have accompanied and shaped our company over the years. Our aim has always been – and continues to be – to bring companies and candidates together in a personal, professional and collaborative way,"

says founder Mag. Matthias Schulmeister.

Today, Schulmeister fills around 500 positions per year and supports companies in their search for specialised professionals and executives.

Specialisation as the Foundation for Growth

From the very beginning, specialised expertise has been a key factor in Schulmeister's development. Particularly in Finance & Accounting, the company has built an extensive network of professionals, executives and companies across a wide range of industries over many years.

Over time, further areas of expertise were added. Technology & IT, Engineering and Real Estate expanded the company's original finance profile, while Executive Search and Interim Management complemented the consulting portfolio, particularly for demanding specialist and management positions.

Today, this development is driven by a broadly experienced management team across the group. Alongside founder Mag. Matthias Schulmeister, the regional offices are represented by Mag. Robert Szvetcz in Vienna, Mag. Ulrike Steiner and Mag. Birgit Eiselsberg in Linz and Salzburg, Mag. Kevin Hütter in Graz and Tomáš Bergl in Prague.

The development of the specialist business areas is led by Mag. Johann Halmdienst for Technology & IT, Mag. Felix Weselmann for Engineering and Mag. Hubert Wolfsbauer of PersonalExperts. Despite the company's growth, the underlying principle has remained unchanged: consultants should understand the markets and functions they recruit for and provide personal support to both companies and candidates.
